EXPERIENCE

Microsoft

March. 2019 – October. 2019

Engineering Program Manager Intern

Seattle, WA

- Rebuilt a Quality Control product with input from 20 cross-functional stakeholders, **saving \$1M annually**
- Spearheaded front-end development on Auction PRO application for SharePoint and **Shipped the new feature to 180k users** to improve experience for selling products inside an organization
- Created 6+ project plans and backlogs while collaborating with Program managers that established development priorities for each release
- Lead product development of a new lab workflow tool, leading to a **40% increase in efficiency**; shadowed 10 core users, iterated on design docs, and implemented the solution with two engineers
- Assisted with the prioritization of 5 product enhancements and new product cataloging to improve usability and retention
- Built a back-end database service in Java and implemented a front-end UI to support future changes
